

'Do More' - Graduate Opportunities

Starting this September, your Local Action Group is a chance to have fun with new friends, share your views and get even more passionate about supporting your local community through social action.

It all culminates in the NCS annual Action Day in April, where you can join Local Action Groups from around the country in one huge day of making a difference.

Plus, it looks great on a CV, job application and with UCAS, and it can help fast-track you to working on NCS in the future...
